

Rocket into the Future

Value of the programme:

Rocket into the Future encourages KS2 students to think about their future. It is designed to support schools in ensuring their students are prepared for the opportunities, responsibilities and experiences of life.

Exciting intergalactic-themed lessons are available on various topics linked to the PSHE education programme of study (PSHE Association January 2017). The programme addresses gender stereotyping in occupations and contains strong links to encouraging interest in Science, Technology, Engineering and Maths (STEM) throughout.

Programme Summary

Health and Wellbeing

Blast Off into the Future - Exploring future options

Mission Control - Understanding what skills and attributes are needed for jobs

Total Eclipse - Making effective transitions to secondary school

Reach for the Sky - Raising aspirations

Stargazing - Exploring inspirational role models and widening knowledge of related careers

Landing and Exploration - Linking subjects to future careers

Relationships

Rocket Girl - Challenging stereotypes

Satellite Transmission - Teamwork, communication and problem solving

Living in the Wider World

Mission to the Moon - Enterprise activity

My Universe - World of work and local Labour Market Information (LMI)

Spacecraft Systems - Using IT to research careers

Shooting Stars - Exploring the real work force

This programme offers:

- Informative, engaging, interactive workshops for groups of KS 2 students
- Delivery by qualified careers advisers with up to date knowledge of the local labour market
- Support for students to establish links between curriculum subjects and the world of work
- Help for students to investigate the range of opportunities available in their preferred subjects
- Support from a wealth of employers

"Without exception, classes across all year groups have reported very positive feedback, from both pupils and teachers. Students thoroughly enjoyed the activities organised for them. An ideal experience for the children; thank you for the planning and preparation of this event."
Assistant Head Teacher, Royston, Feb 2016

"I have gained a better understanding of how school subjects relate to jobs in the world of work. I didn't know that English and Maths were so very important".
Year 6 student, Potters Bar, Nov 2016

Impact
