

Shaping your future workforce

How Youth Connexions can help you

Work Experience & Work Related Learning

Work Experience is a useful tool to develop the management skills of staff, to get fresh eyes on a project and provide that all important extra pair of hands. Placements provide a valuable insight into young people and are usually one or two weeks (or can be over an extended period) at no cost to the employer.

Work Related Learning activities help engage young people, enabling them to acquire the knowledge and skills employers seek from future employees. These activities include: Employer Talks, Mock Interviews, CV Workshops, Careers Events, Employer Led Assignments and Site Visits.

Youth Connexions works closely with schools and employers to provide these opportunities and we will actively support you through this simple process.

For more information on offering Work Experience or Work Related Learning please contact: workrelatedlearning@hertfordshire.gov.uk or 01438 843705.

Vacancies

Youth Connexions offers a free recruitment service to employers looking to take 16-19 year olds (up to 25 years with Learning Difficulties and Disabilities). As a service we will support local employers with filling your vacancies, helping to set up apprenticeship schemes and much more.

For more information please get in contact with our jobs team: jobs16to19@hertfordshire.gov.uk or 01438 844766.

Apprenticeships

Apprenticeships benefit employers by developing a motivated and qualified workforce helping to fill skills gaps and reduce overall recruitment and training costs. Youth Connexions offers a free recruitment service to local employers where we will notify potential candidates who match your requirements. In addition, your vacancy will be advertised on our website, via our Twitter and Facebook pages and be circulated to Youth Connexions centres across the county. You make the final choice of who to interview and employ.

For more information please contact: apprenticeships@hertfordshire.gov.uk
